BUDGET INFORMATION

Please itemize the total supply budget using the Budget Worksheet that is found on the OUR Supply Award page of the OUR website. While the maximum award is $500, it is important for us to know the total cost of the project so we can assess the extent to which these awards are meeting student and faculty supervisor needs.

Total amount of funding requested:

Please upload the budget worksheet for your project. (PDF Format)

Please identify any other funding sources to which you have applied to support this research or creative project (e.g., Presidential Scholar enrichment funding, Rowe Scholar funding, departmental funding, etc.).

RESEARCH COMPLIANCE

Students are responsible for working with their faculty advisor and the Office of Research Compliance to ensure that their project has the approvals necessary to begin their research, and for submitting verification of this authorization to the Office of Undergraduate Research. Research approvals take time and require students to complete relevant training, so please plan accordingly.

You will be asked the following questions in the OUR Supply Award application. Not all questions may apply to you. For questions that do apply, please make note of the information and/or documentation you will need to provide.

Does your project involve research with human subjects? If "Yes," you will be asked the following questions:
- Do you have the necessary IRB approval for this project?
- If "Yes," please upload a PDF copy of your IRB approval letter. Note: If you are a student researcher on a faculty project, please upload a PDF copy of the PI's approval letter AND a PDF copy of the validated Appendix A listing you as a student researcher on the project.
- If "No," please outline your plan and timeline for obtaining IRB approval.

Does your project involve research with animal subjects? If "Yes," you will be asked the following questions:
- Do you have the necessary IACUC approval for this project?
- If "Yes," please upload a PDF copy of your PI's IACUC approval letter and a PDF copy of Appendix C (with approval dates) if you are listed as a student researcher on the project. If you are not being added to Appendix C, we will require an email from your PI indicating that you are an "Unlisted" student on this project.
- If "No," please outline your plan and timeline for obtaining IACUC approval.

Does your project involve the use of biological agents, toxins, and/or recombinant DNA (rDNA)? If "Yes," you will be asked the following questions:
- Have you completed the appropriate laboratory safety training (through Environmental Health and Safety) for this type of work?
- If "No," please outline your plan and timeline for completing the training.
- Does this biological research involve the use of recombinant or synthetic nucleic acid molecules that are covered by the NIH Guidelines?
- If "Yes," please upload a PDF copy of your Faculty Advisor's IBC approval letter.

Does your project involve the use of human embryonic stem cells and/or iPS cells? If "Yes," you will be asked the following questions:
- Do you have the necessary SCRO approval for this project?
- If "Yes," please upload a PDF copy of the SCRO Amendment letter which approves your addition as a student researcher on your faculty advisor/PI's project.
- If "No," please outline your plan and timeline for obtaining the necessary SCRO approval.

DEMOGRAPHIC INFORMATION

The review of OUR Supply Award applications is focused on the merits of the project. Your answers to the questions in this section do not factor into the assessment of the project's merits, but are used to help us match award recipients to appropriate funding sources.
