Work-Study Research Assistant Program	Enables students to earn work-study award by assisting with faculty research	Awarded Federal Work-Study as part of financial aid package	As awarded by Financial Aid	September 22, 2017

* Eligibility for OUR award programs is restricted to students enrolled full-time at any UConn campus who are currently pursuing a bachelor's degree.

2017-18 FUNDING PROGRAMS

Co-op Legacy Fellowship Program

The Co-op Legacy Fellowship provides undergraduates the opportunity to pursue funded summer research projects and/or creative endeavors that represent the legacy of the UConn Co-op's commitment to public engagement, innovation, and social impact. Up to \$5,000 is available to support project expenses.

Health Research Program

The Health Research Program offers a new pathway into undergraduate research for students with interests in health and the biomedical sciences. Through a combination of academic year and summer research opportunities, this program offers undergraduates and their faculty mentors a structure for sustained engagement in research projects, maximizing student learning and preparation for graduate study and/or careers in the health professions.

UConn IDEA Grants

UConn IDEA Grants are available to undergraduate students at all campuses in all majors. Students may apply individually or as part of a small group. Grants of up to \$4,000 per student are available to support student-designed projects, including artistic endeavors, entrepreneurial ventures, original research, and service initiatives. Two groups of UConn IDEA Grants will be awarded each year, with deadlines in the fall and in the spring.

ISA Honors Awards for Undergraduate International Studies Research

These awards fund Honors students conducting projects in the social sciences that span countries, regions, or the globe. Allowable expenses include supplies, services, participant incentives, and travel expenses. Applications for ISA Honors Awards will be reviewed regularly during the academic year with a maximum of \$1,000/student awarded. Applications accepted until the end of March or until funds are exhausted.

OUR Supply Awards

These awards fund the supplies needed by undergraduates to complete their research or creative projects. Allowable expenses include such items as laboratory consumables, art supplies, research participant incentives, and fees for time on shared equipment. Applications for Supply Awards are reviewed regularly during the academic year with a maximum of \$500/student awarded. Awards are made until funds are exhausted.

OUR Travel Awards: Travel to Conduct Research or Travel to Present Research

Travel to Conduct Research Awards are appropriate for students who must travel away from their home campus to execute their research (e.g., to consult materials in an archive). Travel to Present Research Awards are appropriate for students who have had research or creative work accepted for presentation at a professional conference or meeting. Applications for Travel Awards are reviewed regularly during the academic year with a maximum of \$500/student awarded. Awards are made until funds are exhausted.

SHARE Awards (Social Sciences, Humanities, and Arts Research Experience)

The SHARE program supports undergraduate research projects in the social sciences, humanities, and arts. SHARE is designed especially for students in the earlier stages of their college careers to introduce them to research in their chosen field and help them develop the skills they will need for further research projects. Joint faculty-student applications are submitted and reviewed in Fall semester. During Spring semester, student apprentices receive a \$1,500 stipend (via hourly wage) and faculty mentors receive a \$500 professional development stipend.

SURF Awards (Summer Undergraduate Research Fund)

SURF supports full-time undergraduate students who are engaged in summer research or creative projects under the supervision of a University of Connecticut faculty member. SURF awards are available to students in all majors at all UConn campuses. The maximum total amount awarded for SURF awards is \$4,000 (\$3,500 stipend for the student researcher and up to \$500 for supplies associated with the research project).

Work-Study Research Assistant Program

Through the Work-Study Research Assistant Program, students can earn their Federal Work-Study Award funds by assisting with faculty research. Students gain early exposure to research while building transferable skills useful in a range of fields. Opportunities across the disciplines are advertised in August.
