Work-Study Research Assistant Program	Enables students to earn work-study award by assisting with faculty research	Awarded Federal Work-Study as part of financial aid package	As awarded by Financial Aid	September 21, 2018

* Eligibility for OUR award programs is restricted to students enrolled full-time at any UConn campus who are currently pursuing a bachelor's degree.

2018-19 FUNDING PROGRAMS

UConn Co-op Legacy Fellowship Program

UConn Co-op Legacy Fellows pursue funded summer research projects, social entrepreneurship, service initiatives, and creative endeavors that represent the legacy of the UConn Co-op's commitment to public engagement, innovation, and social impact. Fellows receive up to \$5,000 to support project expenses.

Health Research Program

The Health Research Program offers a pathway into undergraduate research for students with interests in health and the biomedical sciences. Through a combination of academic year and summer research opportunities, this program provides undergraduates and their faculty mentors a structure for sustained engagement in research projects, maximizing student learning and preparation for graduate study and/or careers in the health professions.

UConn IDEA Grants

UConn IDEA Grants are available to undergraduate students at all campuses in all majors. Students may apply individually or as part of a small group. Grants of up to \$4,000 per student are available to support student-designed projects, including artistic endeavors, entrepreneurial ventures, original research, and service initiatives. Two groups of UConn IDEA Grants are awarded each year, with deadlines in December and March.

ISA Awards for Undergraduate International Studies Research

These awards support students conducting research in the social sciences that spans countries, regions, or the globe. Allowable expenses include supplies, services, participant incentives, and travel expenses. Applications for ISA Awards will be reviewed regularly during the academic year; a maximum of \$1,000/student will be awarded. Applications are accepted until the end of March or until funds are exhausted.

OUR Supply Awards

These awards fund the supplies needed by undergraduates to complete their research or creative projects. Allowable expenses include such items as laboratory consumables, art supplies, research participant incentives, and fees for time on shared equipment. Applications for Supply Awards are reviewed regularly during the academic year, with a maximum of \$500/student awarded. Awards are made until funds are exhausted.

OUR Travel Awards: Travel to Conduct Research or Travel to Present Research

Travel to Conduct Research Awards support students who must travel away from campus to execute their research projects (e.g., to consult materials in an archive). Travel to Present Research Awards support students who have had research or creative work accepted for presentation at a professional conference or meeting. Applications for Travel Awards are reviewed regularly during the academic year, with a maximum of \$500/student awarded. Awards are made until funds are exhausted.

SHARE Awards (Social Sciences, Humanities, and Arts Research Experience)

The SHARE program supports undergraduate research projects in the social sciences, humanities, and arts. SHARE is designed especially for students in the earlier stages of their college careers, offering an introduction to research and helping them develop the skills they will need for further research projects. Joint faculty-student applications are submitted and reviewed in the Fall semester. During Spring semester, student apprentices receive a \$1,500 stipend (via hourly wage) and faculty mentors receive a \$500 professional development stipend.

SURF Awards (Summer Undergraduate Research Fund)

SURF supports full-time undergraduate students who are engaged in summer research or creative projects under the supervision of a UConn faculty member. SURF awards are available to students in all majors at all UConn campuses. The maximum total amount awarded for SURF awards is \$4,000 (\$3,500 stipend for the student researcher and up to \$500 for supplies associated with the research project).

Work-Study Research Assistant Program

Through the Work-Study Research Assistant Program, students can earn their Federal Work-Study Award funds by assisting with faculty research. Students gain early exposure to research while building transferable skills useful in a range of fields. Opportunities across the disciplines are advertised in August.
